**Performance: 100% dock workers - lives and jobs on the docks  
Lighthouse Park - Genoa / h. 9 pm**

*Organized by:* Fondazione Muvita, Genoa Port Center - Port exhibition and educational center, Genoa Lighthouse, Provincia di Genova, Associazione Luci sui Forti, Theater Company "La Pozzanghera".

*Sponsored by:* Banca Carige, Official Sponsor of Genoa Lighthouse.

*Description:* After hearing an unusual roar the Lanterna's (Genoa Lighthouse) very soul is no longer able to just look in the distance with her light, but she has the need to better understand what stays at her feet, so she moves her eyes from the sea, far away, to the harbor, so close, and begins a journey, between the docks and piers, only to find an unexpected human reality. Often what we have under our sight eludes us, the closest thing is that we know less. Often if you just move your eyes you can focus on what has always been there but has never seen. 8 scenes, 8 crafts, 8 stories that are not meant to represent all the different activities taking place on the docks, they are just a taste to entice you to learn more.

The stories are based on interviews that we made, friends and friends of friends who told us about their hours of work, what they do, what they think of the docks, what they like of their business and what they do not, anecdotes and strange characters encountered. The result is a traveling show, a funny and real account, that has the Lanterna as its guiding light and engine.

The exhibition, promoted and hosted by the Port Authority of Genoa and edited by Paolo Piccione, is a path through models, photos objects, advertising and original videos in order to rebuild the history of the Italian ocean liner which captured the Blue

**16 / 22 SEPTEMBER**

Riband in 1933 for the fastest navigation on the Atlantic Sea.

Info: [http://www.porto.genova.it/speciali/rex/index\\_en.html](http://www.porto.genova.it/speciali/rex/index_en.html)

**Exhibition: ABISSI – Mission to the abyss**

**WOW! Genova Science Center - Modulo 1 - Magazzini del Cotone - Porto Antico Area / from Tuesday to Friday from 3pm to 6pm. Saturday and Sunday from 10am to 7pm.**

ABISSI depicts the mysteries of the ocean's greatest depths. Newly discovered life forms, thermal vents, close-up views of deep-sea research submersibles, and shipwrecks, including the Titanic, are among the attractions in this deep-sea adventure. Visitors observe firsthand the technology that has allowed men and women to travel to the ocean floor.
